

# Transfer of Optimal Super and Pension to HUB24 Super

Dated: 2 March 2023

This Significant Event Notice (SEN) replaces the previous SEN dated 24 January 2023 notifying you that transfer of members from Optimal Super and Pension (Optimal Super) (a division of Xplore Super and Pension which is a sub-plan of the Aracon Superannuation Fund) to HUB24 Super was going to be on or around 1 March 2023. The date of the transfer has been changed and it will now occur on or around 4 April 2023.

This SEN dated 2 March 2023 provides important information about the upcoming transfer of Optimal Super members to HUB24 Super.

Due to the change in the SFT date, the dates set out in the SEN have also been updated, including in respect of when rollovers or transfers prior to the SFT can be received, the freeze period, pension payment and default dates, temporary transaction freeze period, waiver of administration fee period, final Cash Account Interest payment dates, and final fee deduction dates.

If you have any questions about these changes or would like more information, please contact your financial adviser. You can also contact the HUB24 Client Services team by calling 1300 854 994 or emailing [admin@hub24.com.au](mailto:admin@hub24.com.au).

This SEN has been issued by Equity Trustees Superannuation Limited (ABN 50 055 641 757, AFSL 229757 RSE License No. L0001458) (ETSL) as Trustee of the Aracon Superannuation Fund (ABN 40 586 548 205). For more information about HUB24 Super, refer to the latest HUB24 Super Product Disclosure Statement (PDS) and other material incorporated into the PDS (**disclosure documents**). The PDS and disclosure documents are available free of charge by contacting your financial adviser or HUB24 Custodial Services Ltd (ABN 94 073 633 664, AFSL 239122) (HUB24, Administrator), or visiting the [HUB24 website](#).

## Why are you receiving this SEN?

You are receiving this SEN because, as a consequence of a request from Margaret Street Promoter Services Pty Ltd (ABN 23 153 446 210) (in its capacity as the promoter of the Xplore Super and Pension sub-plan of the Aracon Superannuation Fund), ETSL, has made a decision to transfer your account in Optimal Super to HUB24 Super via a "Successor Fund Transfer" (SFT). This transfer is part of a broader consolidation being conducted by ETSL that will see all members being moved to other arrangements before the Aracon Superannuation Fund is wound up. ETSL has decided to adopt this course because it considers it is in the best interest of all members of the Aracon Superannuation Fund.

An SFT involves the transfer of a member’s benefits from one superannuation fund to another superannuation fund (**the successor fund**) where the consent of the individual member isn’t required. To effect such a transfer, the trustees of both funds need to agree that the successor fund will provide rights in respect of the transferred benefits in HUB24 Super that will be equivalent to the rights that the members have in respect of those benefits immediately before the transfer.

ETSL must also satisfy itself that the transfer is in the best financial interests of Optimal Super members.

Having completed its due diligence and having received legal advice, both ETSL and the Trustee of HUB24 Super have made a decision that:

- HUB24 Super will qualify as a “successor fund” to Optimal Super,
- the transfer is in the best financial interest of Optimal Super members, and
- the transfer will occur on or around 4 April 2023.

You will receive another communication if the transfer does not proceed for any reason.

If you do not wish to be transferred to HUB24 Super, you can choose to rollover or transfer to another super fund of your choice.

**If you wish to rollover or transfer to another super fund, we must receive your instructions no later than 5pm 17 March 2023.** Your adviser can assist you with completing and submitting the relevant forms.

## Summary of changes

Your Optimal Super account in the Aracon Superannuation Fund will be closed and a new account will be opened for you in HUB24 Super.

In HUB24 Super, you and your adviser will have access to:

- HUB24’s innovative platform technology
- a broad range of investment options
- enhanced transaction and reporting functionality.

The table below contains a summary of the changes that will occur as a consequence of the SFT to HUB24 Super, which is expected to occur on or around 4 April 2023. For more details, you should refer to the relevant sections (with corresponding headings) later in this SEN.

## Optimal Super and Pension product closure

Your Optimal Super account will close on the SFT date, and a new account will be opened for you in HUB24 Super. After this process is complete, you'll receive a welcome email that will include:

- your new HUB24 Super account number,
- details of how to log in to the online portal, InvestorHUB, where you can access your HUB24 Super account, and
- information on how you and your employer can make contributions to your account (you will need to notify your employer if you want the employer to contribute to your HUB24 Super account in the future).

Your new account will be set up with your current personal details. Any death benefit nomination (or reversionary beneficiary in relation to a pension) will be recognised in HUB24 Super. The adviser you've nominated on your Optimal Super account will also be linked to your HUB24 Super account.

Any investments you currently hold will be transferred to your HUB24 Super account, although the structure of how your investments are held may change (see the section of this SEN under heading "Investments" for more detail).

For more information about HUB24 Super, you can read the HUB24 Super PDS on the HUB24 website at any time at [www.hub24.com.au/product-documents/hub24-super-documents](http://www.hub24.com.au/product-documents/hub24-super-documents).

## Investments

All investments you hold in your Optimal Super account immediately prior to the SFT will be transferred to your new HUB24 Super account, although they will be held as direct investments within HUB24 Super and not within a Managed Portfolio structure. Your adviser may contact you and/or provide advice to you regarding alternate structures of how your investments could be held going forward and any associated fees (including any investment management fees).

Once your account has transferred to HUB24 Super, you'll have access to the HUB24 Super Choice investment menu. This means that the investment options available to you and holding limits may differ.

If you hold investments that are closed to new investments, you won't be able to invest further in those investment options.

The full list of available investments is set out in the Investment Booklet, which is available online at [www.hub24.com.au/product-documents/hub24-super-documents](http://www.hub24.com.au/product-documents/hub24-super-documents) or via InvestorHUB. Investment related fees and costs and investment limits apply, depending on the investment.

## Administration fees and costs

The only changes to the product administration fees and costs are outlined in the following table.

| Type of fee or cost                                       | Current (Optimal Super)  | New (HUB24 Super)   |
|---|--|---|
| <b>Investment fee</b>                                     | An investment fee may apply to each Optimal Managed Portfolio.   | Not applicable as any investments in Managed Portfolios will become directly held investments within HUB24 Super following the SFT of your account to HUB24 Super. Your adviser may contact you to discuss and/or provide advice regarding alternate investment structures and any associated fees (including any investment management fees).  |
| <b>International listed securities administration fee</b> | An additional 0.105% p.a. of the value of international securities held. The fee is calculated daily and deducted from your Cash Account monthly in arrears. | An additional 0.10% p.a. of the value of international securities held. The fee is calculated daily and deducted from your Cash Account monthly in arrears.   |
| <b>Expense recovery fee</b>                               | Up to \$84 p.a.<br>When an expense recovery amount arises, it is deducted from your Cash Account monthly in arrears.   | 0.035% on balances up to \$1m<br>0.000% on balances above \$1m<br>This change will result in an increase for members with balances above \$240,000. The maximum expense recovery fee will increase from \$84 p.a. in Optimal Super to \$350 in HUB24 Super.<br>The expense recovery fee is deducted from your Cash Account on an annual basis and is calculated at the time the fee is collected based on the total value of your account at that time, which is generally at the end of each financial year. |
| <b>Family fee linking</b>                                 | Up to four family members accounts balances can be combined for the purpose of applying the tiered Administration Fee.                                       | Up to six family members account balances can be combined for the purpose of applying the tiered Administration Fee.  |

All other administration fees and costs that not changing are included in the following table for completeness only.

Under the Aracon Superannuation Fund trust deed, the following fee restrictions apply to existing members of Optimal Super, and will continue to apply to your account in the HUB24 Super Fund following the SFT:

- The total amount of fees charged as a percentage may not exceed 1.5% of a member's account as at the last day of each calendar month<sup>1</sup>, and
- The trustee may not charge fees in respect of a contribution split applied for by a member, where the request is made within two years from the SFT date.

<sup>1</sup> Where your account is identified as having exceeded these limits, the amount in excess of the limit will be rebated to you annually, generally following the end of the financial year, or at the time you exit the Fund.

## Activity fees

The following table outlines any changes to current activity fees as well as new activity fees that will apply in HUB24 Super when the relevant activity occurs.

| Foreign currency interest | Nil                     | A foreign currency interest fee applies to any foreign currency interest received in relation to any foreign currency interest held within a Managed Portfolio. The rate of interest varies and also depends on the jurisdiction in which the currency is issued. For example, at the date this SEN was issued, the US Dollar interest rate was 3.83% p.a. |

<sup>1</sup>The break fees or costs or interest penalties (if any) that may be charged by the underlying term deposit provider may be significant and therefore are a risk to be considered in deciding whether to withdraw a term deposit before its maturity. The underlying term deposit provider may provide an estimate of break fees or costs or interest penalties upon request.

<sup>2</sup>Your cash balance may become negative in limited circumstances. At its discretion, the Administrator may permit the processing of certain transactions including the payment of taxes, pension payments and/or fees and other costs which may bring your Cash Account balance into negative. In addition to this, you (via your adviser) may purchase investments using proceeds from the sale or redemption of an investment, where the sale or redemption has been made but the receipt of proceeds to your account has not been finalised.

## Advice fees

Any existing adviser fee arrangements and brokerage on listed security transactions that you've currently agreed to with your adviser will continue when your account is transferred to HUB24 Super. Where you have agreed to pay your adviser brokerage or transaction fees on transactions within a Managed Portfolio, these payments will cease when your account is transferred to HUB24.

If you have consented to the deduction of advice fees from your account in Optimal Super, the Trustee of HUB24 Super will continue to deduct advice fees from your account in HUB24 Super following the transfer. If you do not wish for this to occur, please contact us on 1300 854 994 or via email at [admin@hub24.com.au](mailto:admin@hub24.com.au). For more information on the adviser fee options available in HUB24 Super, see the 'Additional explanation of fees and costs' section in the HUB24 Super PDS Part II – Information on fees and other costs.

## Cash interest rate

There will be no change to how interest on your Cash Account is calculated and accrued. It will continue to accrue daily and be paid monthly in arrears. The interest rate is variable, and you'll be able to view the latest interest rate in InvestorHUB.

## Account minimums

Following the transfer of your account balance to HUB24 Super, the following account features will apply.

| Feature                         | Current (Optimal Super)                 | New (HUB24 Super)   |
|---------------------------------|---|---|
| Minimum ongoing account balance | No minimum                              | \$10,000 (does not apply to the transfer of your account balance under the SFT)   |
| Minimum contribution            | No minimum                              | \$100 per contribution  |
| Minimum Cash Account balance    | 2% or \$2,000, whichever is the greater | 1.25% <sup>1</sup> of your account balance  |
| Minimum trade size              | No minimum                              | \$100 for trading directly in Australian listed securities<br>\$250 for trading directly in Managed Funds<br>\$500 for trading directly in International listed securities<br>No minimum applies to trades within a Managed Portfolio |

<sup>1</sup> If the balance of your Cash Account falls below the minimum, investments in your account may be sold to restore the cash balance to the minimum requirement, without seeking your instruction or consent. A negative cash balance fee may also apply in limited circumstances.

## Online access

Once your account has transferred to HUB24 Super, you'll receive a welcome email that will include your InvestorHUB login details. InvestorHUB is your new online portal where you can view your account information.

The welcome email will also explain how to download the MyHUB mobile app, if you wish to do so.

## Pension payment dates and defaults

If you're currently receiving pension payments in Optimal Super, regular pension payments will cease to be made from Optimal Super after the 15<sup>th</sup> of March 2023, except in limited circumstances.

In addition, your pension account in Optimal Super will be assessed to ensure the minimum pension payments for the period 1 July 2022 – 3 April 2023 have been paid. If your account is identified as not having met the minimum prorated pension payment requirement for this period, a supplementary pension payment will be made to you before the SFT date (on or around the 15<sup>th</sup> of March 2023).

Once your pension account has transferred to HUB24 Super, your regular pension payments will be made on the 10<sup>th</sup> day of the month or the prior business day. If you receive fortnightly pension payments in Optimal Super, bi-monthly payments will be made in HUB24 Super on the 10<sup>th</sup> and 24<sup>th</sup> of the month or the prior business day.

Please note that due to the impact of the SFT, your first pension payment in HUB24 Super will be paid before the 15<sup>th</sup> of April 2023. Going forward all future pension payments will align with the regular schedule of the 10<sup>th</sup> and 24<sup>th</sup> days of the month or the prior business day.

HUB24 Super also has a different approach to pension payment amount defaults. Once your pension account is in HUB24 Super, if you do not make an annual pension payment election, the default will apply, which is to receive the minimum pension payments as prescribed in government legislation.

## Standing instructions and elections on your account

If your employer makes Superannuation Guarantee contributions to your Optimal Super account, you'll need to give your employer a completed Super Choice Fund Nomination Form if you want the contributions to be made to HUB24 Super in the future. For any other type of contribution, you will need to provide your employer with your new account details. Your welcome email will include a link to the relevant form, which will have HUB24 Super's unique superannuation identifier pre-populated for you.

If you make regular contributions via direct debit, you'll need to cancel this direct debit and set up a new regular contribution plan for your HUB24 Super account. You can do this by completing a Bank Account Nomination Form and signing a Direct Debit Service Agreement. Direct debit contributions are processed on or after the 20<sup>th</sup> of each month.

Where you are receiving pension payments, your nominated bank account details for pension payments will be retained.

Your chosen CGT calculation methodology will also continue to apply. It is important to note that the SFT of your Optimal Super account to HUB24 Super will not trigger a CGT event.

## Temporary transaction freeze

Before and during the transfer of your account to HUB24 Super, there will be a temporary freeze on some types of transactions between 17 March 2023 and 19 April 2023, unless otherwise notified by us.

Transactions impacted by the temporary freeze include:

- cash withdrawals
- pension payments (however see the 'Pension payments and defaults' section above for further details about how regular pension payments are impacted)

- buy and sell investment transactions
- account closures
- super to pension transfers.

Any instructions for the above transaction types received after 17 March 2023 will be processed after 19 April 2023.

During the temporary freeze period, you'll still be able to make contributions to your account. However, these contributions won't be able to be invested until 19 April 2023, although you will receive interest on the contributions from 4 April 2023.

## TFN

If you have not provided your Tax File Number (TFN), your employer contributions, and any other concessional contributions, are subject to 32% additional income tax on top of the 15% tax paid. If you have not already provided your TFN, you should provide it as soon as possible.

## Final tax adjustment

When Optimal Super is closed, a final tax calculation will occur. The tax calculation process will take place within the freeze period and any tax refunds or liabilities will be paid to or debited from your account (as applicable) before your account is transferred to HUB24 Super.

## Final Cash Account interest payments

On 17 March 2023, you will receive a final interest payment in relation to the cash held in your Optimal Super Cash Account. The interest payment will reflect the estimated amount for the period 17 March to 3 April 2023. To calculate the estimated interest for the period between 17 March – 3 April 2023, the balance of your Cash Account on 17 March 2023 will be used to calculate interest payable for the remaining period.

## Final fee deductions

On 17 March 2023, all fees payable for the period 17 March to 3 April 2023 will be debited from your Optimal Super account. The value of your account on 17 March 2023 will be used to calculate the fees payable from your Optimal Super account for the period up until the SFT date, which is the last day you will be in Optimal Super, before it transfers to HUB24 Super. This is a change to the timing of the deduction of fees and will not result in an increase in the fees you pay from your account.

Included as part of the final fee calculation will be an assessment against the Trustee total administration and investment fee cap of 1.5% per month. Where a fee rebate is due, your final fee will be adjusted by the rebated amount before the final fee is deducted.

## Other

You should talk to your adviser if you wish to split your superannuation contributions with your spouse or withdraw excess contributions prior to the SFT.

## New contact details

From the SFT date, please contact the HUB24 Client Services Team using the details below for any matters relating to your account.
